Game experience VP	• No pay-to-win: purchases are cosmetic or convenience only; combat power is earned in-game • AI weapon-spirit companion in awakened weapons • Adaptive Oshima boss instead of scripted repeats • 15-minutes for small instance & 2hours for big instance that that fit 6 to 10 hrs/week
Low Latency Network Service VP	• Low-latency routing for game traffic • Edge-hosting cooperation close to players
Subscription Service VP	• Monthly subscription to the live game service • Convenience perks only, no combat advantage • Keeps servers, events and new content running
Play Data VP	• Anonymised gameplay data from raids and sessions • Shows how players actually play • Used to tune the adaptive boss and balance raids • Collected with player consent (GDPR)
Game access VP	• Buy and download the game on Steam and other stores • Automatic updates through the platform • Familiar store account, reviews and checkout
Cosmetic Item VP	• Character skins, weapon skins and mount models • Sold to players in the authorised marketplace • Wider item catalogue without a bigger in-house art team • Non-combat items only, so no pay-to-win
Payment service VP	• Payment processing for website sales • Recurring billing for monthly subscriptions • Secure checkout and settlement to Skyrealms
Sponsorship VP	• Skyrealms funds the running of the forum • Funding for idea rewards, events and competitions • Direct contact with the design team
Authorized VP	• Certification and access to the player audience • Licence to sell customised items in the authorised marketplace • Supplier keeps 90% of each sale, 10% to Skyrealms • Non-combat items only, so no pay-to-win
Game Improvement Idea VP	• Curated improvement ideas from players worldwide • Early signals on what players want next • Adopted ideas are rewarded (Game Improvement Money VP)
Game Access VP	• One-time licence to own and play Sky City: Shattered Isles • Permanent access to the base game and its updates • All combat content included; nothing is sold to win
AI Game Experience VP	• AI weapon-spirit companion that talks and reacts during raids • Adaptive Oshima boss that learns player tactics • Conversation AI supplied by the LLM vendor • Memory limited to raid data; no personal profiling
Customization VP	• Customised services from authorised third party suppliers • Players co-design a special item, preview it, then decide to buy • Players pay the supplier; Skyrealms keeps 10% • Non-combat items only
Promotion VP	• Store visibility through featured listings, sales and wishlists • Reach to a global audience of PC players • Sales reports and player reviews
Hosting VP	• Game servers, compute and storage • Scales with player load during raids and events • Servers in regions close to players
Marketing Channel VP	• Forum promotes the game in the player community • Articles, competitions and ranking lists spread the word • Low-cost reach to engaged players
Audience VP	• Reach to an engaged audience of working adults 25 to 40 • Ad placements and event sponsorships on the forum
